

E-POWER!! Relax and Recharge!!

Everything in creation is energy, that energy has a resonant frequency - a vibration. The E-Power machine uses high frequency energy waves (**Pulsed ElectroMagnetic Fields**) which match our own cellular resonance to increase the production of ATP within our cells, **increasing cellular energy production, electrical potential, oxygen utilization, circulation and metabolism.**

Using your body as a capacitor, the E-Power generates 70 KHz of high frequency electrical waves. Negative Ions spread throughout the entire body, creating an internal energy that will balance, detoxify and revitalize you. Additional energy waves entrain your brain to the Theta brainwave frequency; relaxing your mind and autonomic nervous system.

The E-Power increases cellular energy, balances pH, enhances oxygen reserves, boosts metabolism, circulation, enhances antibodies, increases bone strength, improves nerve function, digestion and elimination, rejuvenates skin and uplifts you mentally and emotionally as well!

Potential Benefits:

- Nutrients, Oxygen & H₂O easily penetrate the cell membrane for **increased energy production and metabolism**
- Waste, toxins and carbon dioxide are released for **cellular detoxification**
- **Produces profound physical and mental relaxation with millions of negative ions and Theta brainwave frequencies**
- **Boosts Immune and Digestive function**
- **May increase muscle mass & weight loss**
- **Reduces inflammation and joint and muscle pain**
