

## The LED Facial Dome: *Skin Rejuvenation without Surgery!*

### **Healthy, Radiant, Ageless Skin from the Inside Out!**

This specially designed LED Dome emits specific wavelengths of light, including blue, red, and near infrared that penetrates the epidermis and dermal layers of the skin. The lightwaves stimulate production of collagen and elastin, kill acne-causing bacteria, and rejuvenate the skin's healing process.

~30 min session

- Increases circulation, hydration, and promotes the turnover of fresh new cells to the skin's surface for a youthful glow
- Rejuvenates skin, leaving it looking healthy, radiant, plumped, and **toned**
- **Diminishes signs of aging such as fine lines and wrinkles**
- Treats sun damage, hyperpigmentation, dark circles, and redness
- Detoxifies, decongests, and de-puffs the skin
- **Kills bacteria & helps heal acne and skin conditions**
- Reduces inflammation and redness from psoriasis, rosacea, eczema, and acne scarring
- **Stimulates collagen & elastin production for long-term benefits; rebuilding the skin from the inside out**
- **Includes Swiss Dermal Face/Neck mask for ultimate hydration and lifting**
- **Immediate visible results**
- Non-invasive, safe & effective
- Individual results may vary
- Optimal results in 6 sessions

Single Session: \$59

**Trial Session: \$39    Pkg of 5: \$195**
